Eric,
Matt said you might be involved in Roger's driveway project.
Any ideas about a map showing existing right of way? Wouldn't that just be an easement?
Thoughts?
Thanks,
Katie

Thanks Katie. This request is not related to the signal at the underpass.

On a separate project we are adding an entrance on parcel M5610025000035. It will likely impact parcel M5610025000036 so we are studying if frontage purchase will be required. I was hoping there may be a map that shows the existing right away owned by county.

Thanks,
Roger
