Michelle,

Forgot to CC you on reply to Kevin. I'll swing by site sometime today.

Sincerely,
Eric

Kevin,

Thank Kevin. I believe our Storm Water Coordinator may have had a similar call or email a couple years ago. I'll go through our records and follow-up on this information as well.

Sincerely,
Eric

Subject: Storm runoff complaint in Butler Co. 2072 Jackson Rd Hamilton, OH 45011

Hello Eric,

I received a complaint from Jesse VonStein on 10/15/19 about the facility next to his (Brandenberg's Garage). Here is the breakdown of the nature of the complaint:

- Jesse said the runoff from the roof of the garage is pooling around the property and has an oily, shiny sheen to it. Jesse stated that the runoff looked like it had transmission fluid and oil in it.
- During heavy rains the runoff would collect on the garage property and then Dave Brandenberg (owner) would have someone pump the collected stormwater with oil and transmission fluid in it over the fence to alongside the road.
- Jesse stated to me he had pictures of the stormwater conditions and the pooling around the property. I asked for them while he was on the phone with me and gave him my email address. I followed up at the end of the day with another email to Jesse asking for the pictures and then waited a couple days but I have not received them yet.

Jesse admitted to me that Dave Brandenberg had filed charges of menacing and harassment against him because of a voicemail he had left on the garage's phone. Jesse also admitted that everything in the complaint goes back 4-5 years.

Michelle Flanigan gave me your contact information and said to let you know about this since it is in an MS4 regulated area. Thank you for assistance on this.

Here is Jesse's contact information:
