Subject: Permits for Dirt Work - Reynolds' sites
Attachments: Site Maps for both north and south properties.pdf; intent to fill - ESC - Driveway Permits.tiff

---

Hi Eric,

I'm submitting permits for your review and approval as part of the preparation and planning for the dirt transfer from the Liberty Center site to approximately 1.5 miles to the West on 2 properties owned by the Reynolds.

I've attached a file containing the Driveway Permit, Earth Moving Erosion and Sediment Control Permit and the signed document Intent to Fill Requirements for hardfill sites - sent to State of Ohio. The second file contains the maps of both sites documenting fill areas on the North site and storage area on the South site.

Please let me know if you have questions or need additional documentation. I will drop the check off at the Engineer's office for the ESC permit.

Thank you,

Roger
