Subject: Liberty - North site

Eric,
Good morning… I felt that we should follow up to you to provide an update.

We did complete the haul and dump on the **north** site last week… we continue to haul clay to the south site. We should be on pretty close target to the 45 days we gave you +/- 10 days ago to wrap up all the hauling.

We are working to complete our final dress on the North and will be installing some stone in the next week. We will also clean up the roadside shoulder and restore this just as we promised. We will also broom clean up in the driveways as well.

Just wanted to give you an update. We will be back in touch soon. Have a good weekend, Tim
