Thanks Eric appreciate the reply and the good report on the road.
We will touch up the berms when we resume. As of now we are planning to start and run Monday Tuesday and Wednesday of next week. Weather sounds promising.
We will stay on the cleaning and look to maintain Liberty Grand.
Thx Tim

Subject: RE: Permits for Dirt Work - Reynolds' sites

Thanks for your time earlier this morning (12/17). As discussed, Liberty Township received several calls regarding condition of Hamilton-Mason Rd towards Maud Hughes Rd. We were able to check haul route this afternoon. While the overall route was mostly clean, some mud is being tracked from both dump sites and is building-up on edge of pavement and berm. In addition, mud is collecting in the eastbound turn lane at Liberty Grand Drive. When sweeping / cleaning, please include the berm and turn lane.

Sincerely,
Eric

Eric
We are on it and running our broom. We had already planned to broom clean tomorrow also. We are not running trucks tomorrow.
Thx for the heads up
Tim

Tim,

Just got off phone with our Construction Manager, David Quimby. He went through haul route a few minutes and is concerned with amount of dirt on Hamilton-Mason / Liberty Way, especially with rain in the forecast. Please check the route and address any mud as quickly as possible. David also said there is a hole on north side of Hamilton-Mason, at the entrance to Reynold north spoil site, that needs to be filled with #2 stone.

Sincerely,
Eric

Eric,
Good morning to you…

Wanted to check in with you and verify that all the paper work is issued as we are planning to start.
Please LMK and thank you.
Tim

Subject: Permits for Dirt Work - Reynolds' sites

Hi Eric,

I'm submitting permits for your review and approval as part of the preparation and planning for the dirt transfer from the Liberty Center site to approximately 1.5 miles to the West on 2 properties owned by the Reynolds.

I've attached a file containing the Driveway Permit, Earth Moving Erosion and Sediment Control Permit and the signed document Intent to Fill Requirements for hardfill sites - sent to State of Ohio. The second file contains the maps of both sites documenting fill areas on the North site and storage area on the South site.

Please let me know if you have questions or need additional documentation. I will drop the check off at the Engineer's office for the ESC permit.

Thank you,

Roger
