Subject: Constituent complaint - Attachment

Tim and Dale,

Can we discuss? The Commissioners have asked me to draft a letter of receipt which I will and prefer to collaborate with the Township and BCEO as we communicate with the resident.

Please let me know if you've had any interaction with this resident and any efforts implemented to date. Are you okay if I offer a meeting for our entities to offer with the resident?

Butler County
BOARD OF COMMISSIONERS

BUTLER COUNTY
COMMISSIONERS

Mr. Donald Dixon
Butler County Commissioner
315 High Street
Hamilton, Ohio 45011

Dear Mr. Dixon,

I am sending this letter to you, hoping you can seek help from the people in the Butler County system to resolve a serious water problem in my back yard along with my next door neighbors back yard. When it rains, the water comes from the east, west, north, and south to collect in my back yard and the neighbors. The water issue is going to have a negative impact on our property value. If and when our house will be sold, the water issue will have to be reported to any potential buyers.

I have enclosed some pictures of the water problem when it rains. I measured the the depth of the water one time and it was 19 inches at the drain outlet.

When I lived at my previous house on Ridgecrest Drive in West Chester, the county was able to remove dirt from the ditch in front of the house for the rain water to flow. The current situation doesn't allow for any dirt removal to improve the water flow.

I would appreciate any help and/or assistance you can provide. If there is something I should be doing, please advise.

Ted R Dolby

Sincerely Ted R. Dolby
