Remarks:

Enclosed please find two sets of civil construction drawings, revised storm sewer calculations, and detention calculations for Interstate Commerce Center I located on LeSaint Court in West Chester for your review and information. We have also enclosed a copy of the Bulletin that will be issued with the drawings to the contractor which outlines the changes that have been made to the drawings.

We had to adjust the storm sewer calculations due to a storm pipe uncovered which apparently drains some of the existing Lesaint Building and the site to the north. We have also made some revisions to the roof drain collector pipes based on our phone conversation and discussions with the contractor.

Please review the drawings and calculations and let us know if you have any comments that we need to address.

If you have any questions or need any additional information let us know.
