

Meeting notes

Date 12-13-06

Purpose: To discuss the Bethany Road Improvements as they pertain to the new Lakota Freshman School as well as a new elementary school on LVWC just north of Tylersville.

Attendance: Kar Singh, David Quimby, Matt Leoffler, Greg Wilkens, Nathan Moore, Craig Honcomp, Lakota Schools

Notes

◆ LVWC Elementary School

- With the vertical issues and sight distance look improving the vertical alignment with the addition of a south bound turn lane.
- Poles are on both sides of the roadway.
- Klingers to look at the difference between one side widening and both.
- ML - TIS is not needed as long as improvements are done.
- ML – May need to look at radius improvements to Hamilton mason for bus traffic
- School stated that the buses are making the trip now.
- School does not have to pay prevailing wage so they could save money not contracting the construction to the county.
- They want to be open fall 2008
- GW - We will look at fitting it into to our 2008 schedule.
- GW- Make sure that safety is above and beyond the number one priority with buses and kids.

◆ Bethany Road Freshman School

- Bethany signal was bumped to 2007 construction
- School
 - wants us to look at the pedestrian crossing mid block to cross over to the high school
 - Maybe look at lengthening the time the school flashers are going off.
- ML - We are very hesitant to push for a cross walk mid block
 - Need flashing signal at pedestrian request
 - Would need to add lighting to the crossing
- Kliengers is to look at preliminary eng on punch through road.
 - Vert and horz alignment with sidewalk
 - Possible deflection at the intersection to force in sidewalk
